CamSur Uptown Golf Brand Brain: setup guide

Lives in `brand-brain/`. Built on 2026-10-21 from the website code and content in this repo (`src/app`, `src/components`, `src/lib`, `src/i18n`, `public/branding`). There is no brand book, business plan or research report in the repo, so the website is the source for look, facts and prices, and anything inferred beyond it is marked **PROPOSED**. The Expo app in `mobile/` was restyled from `01-brand-kit.md` §9 on the same day.

The 4 knowledge files

File	What it gives Claude
`04-the-camsur-uptown-golf-system.md`	**Read first.** What the club is: course (IMG design credit), clubhouse (VM·STUDIO concept, not as-built), Villa Del Rey stays, CWC experiences, packages, events, membership, booking; prices (all Estimates); what may and may not be said
`01-brand-kit.md`	Logos and their paths, the colours the site actually uses (with roles and contrast), the four typefaces and the type scale, buttons/cards/sections, imagery, mobile tokens (PROPOSED)
`02-voice-rules.md`	Six voice traits, locked lines, headline and CTA patterns, formatting (₱, times, dashes, middot), truth rules, banned phrases
`03-brand-dna.md`	Who the club serves, the problem, the solution, the difference, proof we have and proof we don't

Set it up (5 minutes)

1. **Project:** Claude → Projects → New project → "CamSur Uptown Golf Brand Brain".
2. **Brand kit:** upload `01-brand-kit.md` and the logos `public/branding/camsur-uptown-golf-header-v4.png`, `public/branding/camsur-uptown-golf-v3.png`, `public/camsur-uptown-mark-transparent.png`.
3. **Voice:** upload `02-voice-rules.md`.
4. **Brand DNA:** upload `04-the-camsur-uptown-golf-system.md` and `03-brand-dna.md`.
5. **Plan and prices:** no business plan exists. If you upload `src/lib/golf-booking.ts` or `src/lib/membership-plans.ts`, mark them **internal — example prices, not approved**.
6. **Project instructions:** paste the block below.

```
You are CamSur Uptown Golf's in-house creative team. CamSur Uptown Golf helps golfers in and visiting Camarines Sur get a championship round beneath Mt. Isarog, a course-side stay and a planned trip, all booked in one place.
The product: a new 18-hole, par-72 golf club in San Jose, Pili, Camarines Sur, with a clubhouse (concept by VM·STUDIO), course-side stays at Villa Del Rey, packages, events and a paid membership.
Before writing or designing anything, follow the project files: 04-the-camsur-uptown-golf-system (what the club is; read first), 01-brand-kit (look), 02-voice-rules (sound), 03-brand-dna (who and why).
Rules: plain and practical, unhurried, the club as host; short declarative headlines ending in a full stop; no exclamation marks or emoji. Never invent prices, dates, distances, reviews, rankings, awards or member numbers. All ₱ figures are Estimates (example prices, not approved). Say "designed by IMG" / "shaped by IMG" only; never "official IMG partner" or "endorsed by IMG". The clubhouse is a concept, not built. No opening date. CWC facilities belong to CamSur, not the club. Never write: award-winning, grand opening, now open, world's best, top-ranked. The course is 6,851 yards from the Black tees (never 6,697). Imagery: real course aerials, clubhouse concept renders (label as concept), Villa Del Rey photos; no people unless needed. If a fact is not in the files, ask me instead of guessing.

Open items to confirm

5. **Belonging** — membership: "Your club, a step ahead." (followed — members page)

CamSur Uptown Golf Brand Brain — 01 Brand kit

Knowledge file for the CamSur Uptown Golf Brand Brain Claude Project. Visual identity only. Compiled 2026-10-21 from the sources below. Identity authority: the website code (no brand book, deck or style guide exists in the project). Read `04-the-camsur-uptown-golf-system.md` first; it wins on what the product is. No `brain.json` / owner corrections exist yet.

1. Logo

The mark: a pointed shield (leaf/drop outline) in gold with a deep-green field. Inside, in gold line: a mountain (Mt. Isarog, the landmark in [SITE]), a pin flag, and flowing fairway/water lines. Wordmark is serif capitals in gold. Source: visual inspection of the files below.

Asset	Path	What it shows	Where used	Status
Header lockup v4	`public/branding/camsur-uptown-golf-header-v4.png` (+ `.svg`)	Shield + "CAMSUR / UPTOWN / GOLF" + "— Est. 2026 —", transparent	Desktop header, unscrolled, 156px wide, `drop-shadow-[0_3px_12px_rgba(0,0,0,0.55)]`	followed
Full lockup v3	`public/branding/camsur-uptown-golf-v3.png` (+ `.svg`)	Same lockup, "GOLF" set larger	Not referenced in `src/`	unused
Club logo	`public/camsur-uptown-logo.png` (1536×2048, black background)	Shield + "CAMSUR / UPTOWN" + "— GOLF CLUB —" + "— Est. 2026 —"	Footer (h-36 to h-44), watermarks, hole pages, mobile home	followed

Gold mark (shield only)	`public/camsur-uptown-mark-transparent.png` (911×1251)	Shield outline + mountain/flag/lines, gold only, no green field	Desktop header when scrolled (56px), mobile nav pill (`h-8`, 32px)	followed
App icon / splash	`mobile/assets/images/icon.png`, `splash-icon.png`, `brand-mark.png`	App icons on `#0a2418` background (`mobile/app.json`)	Expo app	followed
Web icons	`src/app/icon.png`, `src/app/apple-icon.png`	Favicon / touch icon	Website	followed

- **Colourways in use:** full colour (gold + deep green) on dark imagery/hero; gold-only shield on dark; grey watermark (`grayscale`, opacity 0.04 in [EDK] `Watermark`, 0.1 in [HOME] Introduction). No one-colour dark-on-light version exists.
- **Minimum size (sourced reasoning, [HEADER] comment):** the full portrait lockup needs about 96px height before the wordmark reads; below that use the shield-only mark. Shield is used down to 32px.
- **Placement:** top-left on desktop; shield centred in the mobile pill; footer left column.
- **Clear space:** not specified in any source.
- **The `.svg` files are not vector.** Both contain one embedded PNG (`<image href="data:image/png…">`, 0 paths). There is no vector master in the project.
- **Misuse (PROPOSED, from how the site already treats the logo):** do not recolour the shield; do not place the full-colour lockup on cream/white (it is only ever shown on dark); do not stretch (all uses keep `object-contain` / `h-auto`); do not add effects beyond the existing soft drop shadow on imagery; do not shrink the lockup below ~96px tall.
- **Other brands' marks on the site** (not ours, never recolour or combine with ours): Villa del Rey crown wordmark, blue (`public/villa-del-rey/logo.png`, `logo-white.png`); Gota Village Resort (`public/gota-village-resort/gota-logo-white.png`); Visit CamSur / CWC (`src/components/VisitCamsurLogo.tsx`, inline SVG, `currentColor`); IMG wordmark in gold (`public/branding/mc-gold.png`, masked in `#f3dda0` as the "Course design" fact in the home hero and mobile home).

Mobile: floating pill `bg-[#265136]/95 backdrop-blur-xl`, menu sheet `rounded-[1.75rem] bg-[#265136]/98`.
- **Fairway divider ([FD]):** three rolling ridges (white at 18% and 44%, then a solid fill matching the next section, usually `#f7f5ee`) plus a white pin flag on the right crest. Used where a hero meets the content on section, hole, stay and package pages.

Hole aerials	`public/golf/aerial-holes/hole-NN-aerial.png`, `official-hole-maps/`	Sunlit oblique aerials: lakes, palms, bunkers, cart paths	Course is under development ([04] §2), so treat as visualisations. Unlabelled — owner call	(not in the repo)
Course concepts	`public/course-concepts/concept-NN-*.png`	Concept views	Named "concept" in files	
Clubhouse concept	`public/clubhouse/concept/*.jpg`, `public/clubhouse/` `.jpg`, `*.mp4`	Renders: curved bronze-and-glass volume, rooftop trees, lake reflections, golden-hour light	Concept note printed on `/clubhouse/architecture` only

- **Look (observed):** warm low sun, green fairways, blue water, palms, the mountain on the horizon, no people or few people, wide and aerial framing, warm materials (bronze, timber, travertine).
- **Labelling concept/AI imagery:** a `GeneratedBadge` component exists ("Generated" gold pill, [GB]) but has **0 uses → wish**. The only labels in force are `CLUBHOUSE_CONCEPT_NOTE` ([CH]) and the general renderings clause in `src/app/terms-of-use/page.tsx`. Rule (PROPOSED): every render or AI image used outside the website carries "Concept" or "Artist's impression"; never present it as the built club.
- **Placeholder:** `ImgPlaceholder` ("Photo coming soon") in green or cream gradients.

Image-generation briefs (PROPOSED; label all output as concept)

1. **Course at first light**, 16:9, `public/hero-images/course-dawn-concept.webp`. Low aerial over a broad tropical fairway that bends around a still lake toward a green, with Mt. Isarog's long volcanic profile soft in the haze behind. The first warm sun rakes across the grass, there is dew in the shadows, palms line the edges, and the water reflects a pale gold sky. Calm, wide, no golfers. No text, no logos, no watermarks. (not in the repo)
2. **Clubhouse terrace at dusk**, 4:5, `public/clubhouse/concept/terrace-dusk-concept.jpg`. Eye-level view from a travertine terrace under bronze vertical fins, with walnut furniture and frameless glass behind. The course falls away to a lake glowing with the last light, and the mountain is dark on the horizon. Restrained, warm, empty of people. No text, no logos, no watermarks. (not in the repo)
3. **Detail still life**, 1:1, `public/hero-images/pin-detail-concept.webp`. Close view of a pin flag on a dewy green, the flag a deep forest green with a soft gold edge, a shallow depth of field, and the lake and palms

blurred behind in morning light. No text, no logos, no watermarks. (not in the repo)

1. How we sound

Trait	Meaning	Sounds like (verbatim)	Not like	Status
Plain and practical	Says what happens next, in order, in everyday words	"Choose your date and tee time online and secure it with a downpayment — or tell the club what you have in mind and the team will arrange it for you." [COMP:GolfDetails]	"Embark on an unforgettable golf journey"	followed
Golfer-literate	Talks about lines, angles, carries and pace the way players do	"Length alone will not score here. On most holes the best line into the green is the one that asks for the most from the tee shot." [COMP:GolfDetails]	"A challenging course for all skill levels"	followed

Unhurried	Time, calm and no rushing are the main offer, not excitement	"Birthdays, anniversaries, reunions, and milestones, held in a setting built for unhurried time rather than a fixed running order." [COMP:EventsDetails]	"Non-stop fun for the whole family!"	followed
The club as host	The club and its team do the work; the guest only decides	"Once the plan is agreed, the club runs the day, so you can be a guest at your own event." [COMP:EventsDetails]	"Book now before slots run out"	followed
Landscape-led	Mt. Isarog, water and fairways set the scene before facilities	"Hole 15 opens toward the upper course with the broad ridgeline of Mt. Isarog defining the horizon." [SC `CONCEPTS`]	Lists of amenities with no sense of place	followed
Honest about what is unfinished	Says plainly when something is a concept or not yet decided	"Opening hours, dress code, and visitor access are still being finalized. Plan your visit and we'll help you prepare." [COMP:ClubhouseDetails]	Writing about the clubhouse as if it is open	followed

We are not (PROPOSED, based on what the copy never does): loud (no exclamation marks in 1,673 strings), salesy (no "limited time", "book now", "don't miss"), or superlative-led (no "luxury", "exclusive", "premier", "iconic", "stunning", "paradise" anywhere in `src/`).

5. Channel notes

Channel	What the evidence shows	Status

Multilingual

- Base language EN. Switcher: FIL, KO, VI, ZH, JA. BCL (Bikol) exists in [CFG] but is hidden while the translation is reviewed. Do not publish BCL.
- Never translated [DICT]: "CamSur Uptown Golf", "IMG", "Villa Del Rey", "Est. 2026", "Mt. Isarog". The JSON files also keep "Lago Del Rey" and "VM·STUDIO" in English. Prices and tee times are wrapped in `translate="no"`.
- All translations are AI-drafted and need club review before publishing [DICT comment]. Status: **wish**.

6. Truth rules (non-negotiable)

1. **IMG:** say only "Designed by IMG" or "shaped by IMG". Do not say partner, endorsement or award [SYS §6]. The homepage also shows IMG's logo mark (`public/branding/mc-gold.png` , gold "IMG"); permission to use it is **owner call**.
2. **Clubhouse is a concept** by VM·STUDIO. Label it "Clubhouse concept", "Architectural concept" or "· Concept design", and keep `CLUBHOUSE_CONCEPT_NOTE` word for word wherever the design figures appear [CH].
3. **No opening date.** "Opening year: To be confirmed" [PAGE:golf/courses/[hole]]. "Est. 2026" is not an opening date.
4. **No awards, rankings, reviews, testimonials or member counts** [SYS §6].
5. **CWC facilities** (wakeboarding, pickleball, ATV, etc.) are "at CamSur" and link to visitcamsur.com / pickleball.camsur.com. Copy may say "runs its own booking and schedule" [COMP:ExperiencesDetails]; it may not say the club owns or runs them.
6. **Packages:** "Rate on request" only [COMP:PackagesDetails].
7. **Listed prices are example figures (Estimate).** Green fees ₱4,500 / ₱2,500, add-ons, villa nights and membership ₱3,500 / ₱7,500 / ₱18,000 all carry the code note "HALIMBAWANG PRESYO … hindi pa inaprubahan ng club" (example prices, not approved by the club) [GB], [MP]. Do not put them in ads, social or email until the owner confirms them.
8. **Course figures:** only Black-tee yardages are confirmed. Use "Provisional concept distance" and "Existing concept distance; subject to final measurement." for the rest [I18N], [COMP:Scorecard].
9. **Concept imagery** must say "concept" in alt text or caption ("Members' lounge concept…", "Clubhouse arrival concept…"). The Terms say "Illustrations and enhanced images are provided to communicate the intended experience." [PAGE:terms-of-use]
10. **Items marked "TODO (para sa club): kumpirmahin"** (travel times, gate hours, parking, transfers, FAQ answers, dress code, green fees, package inclusions, facility hours) may stay on the site as drafted, but must not be restated as fact in new copy until confirmed [SC], [COMP:VisitDetails, PackagesDetails, ExperiencesDetails, GolfDetails].

Owner corrections: `brand-brain/brain.json` does not exist yet, so there are no recorded corrections. Nothing in this file is overridden by one. **There is no business plan, research report or brand book in the repo.** Segments, problem and difference below come from what the site says and who it addresses. Anything beyond that is marked **PROPOSED**.

Status key: **followed** = live copy already does it · **wish** = stated, not followed · **owner call** = undecided · **PROPOSED** = drafted by Claude, owner to approve.

The Brand DNA in six lines

All six lines are **PROPOSED**. The site shows each part, but no owner document states them.

1. **WHO WE HELP**: We help golfers playing in or travelling to Camarines Sur (solo, as couples, or in foursomes and groups, members or visitors) who want a round, a stay and a plan for the people with them, all from one club.
2. **THE PROBLEM**: They struggle to put a golf trip together when the tee time, caddie, cart, rooms, airport transfer and things for non-golfers each have to be arranged separately.
3. **HOW WE SOLVE IT**: We pair an 18-hole, par-72 course with online tee booking (30% downpayment), course-side stays at Villa Del Rey, packages, events and CamSur activities, so they book once and the club arranges the rest.
4. **WHY WE ARE DIFFERENT**: The sources name no competitor. What sets the club apart: a course designed by IMG beneath Mt. Isarog, a landscape-led clubhouse concept by VM·STUDIO, and stays and

CamSur experiences around the course.

5. **PROOF**: 18 holes, par 72, 54.23 hectares, 7 water features; clubhouse concept of 2,695 m² over 3 levels + rooftop with 300 member lockers (concept, not as-built). There are no reviews, awards or opening date yet.
6. **ONE LINE**: CamSur Uptown Golf helps golfers in and visiting Camarines Sur get a championship round beneath Mt. Isarog, a course-side stay and a planned trip, all booked in one place.

Sources by line: 1 [SC] FAQ, [PKG] "Ideal for", [MEM] · 2 inferred from what the site bundles: [PKG] inclusions, [SC] `ARRIVAL_NOTES`, FAQ, [EXP] · 3 [GB] `COURSE`, [VDR], [PKG], [EV], [SC] `SITE_SECTIONS` · 4 [HOME], [CH] `CLUBHOUSE_DESIGNER`, [SC] · 5 [HOME], [GOLF], [HO], [CH] `CLUBHOUSE_FACTS` · 6 [SYS] §1, [SC] / `src/app/layout.tsx` description.

1. Who we help: segments

Each segment is **followed**: the site addresses it directly. The priority order between segments is **owner call**.

Segment	Situation	Problem	What they need to hear	Evidence
Visiting golfers (non-members)	Want to play without joining	Unsure if a club will let them in	"Yes. Visitors are welcome throughout the week." No handicap certificate is needed. Book online.	[SC] FAQ "Can I play if I am not a member?"; [VIS] FAQ; [GOLF] "Book your first round."
Couples and solo golfers	A short overnight golf break	Need the room, round and breakfast arranged together	Stay & Play: one night, one round with a caddie, breakfast, range balls	[PKG] stay-and-play `["Ideal for", "Couples and solo golfers"]`
Golf groups, foursomes, friends	A multi-day trip for a fixed group	Tee times, pairings, transfers and dinner for many people	Group Golf Getaway: two nights, two rounds, one group dinner, arranged around the party	[PKG] buddy-trip "designed for friends who play together"; `["Ideal for", "Foursomes and golf groups"]`; [GB] `maxPlayers: 4`
Members	Play often and want a home club	Want priority, a lounge, and a reason to come back	Three monthly plans; members' lounge; priority tee times; member rates	[MP]; [MEM] "Three ways to belong.", "Your club, a step ahead."
Corporate and event organisers	Company golf days, team days	Need one team to run golf, dining and timings	"the club runs the day, so you can be a guest at your own event"	[EV] Corporate Events, Golf Tournaments; [GI] placeholder "A company golf day for 24 players…"; [PYV] "the events team replies within 48 hours"
Private celebrations	Birthdays, anniversaries, reunions, milestones (and weddings on [PYV])	Want a setting, not a fixed running order	Personalised menus and flow, sunset gatherings	[EV] Private Celebrations; [PYV] "weddings"

Families and non-golfers with golfers	Partners and children on the trip	Nothing for them to do while others play	Wakeboarding, kiddie park, massage, Lago Del Rey and more; a separate itinerary built "around your tee times"	[SC] FAQ "Is there anything for people who do not play golf?"; [EXP]; [VDR]/[SC] Villa Del Rey "for golf groups, families"
Flying-in visitors (Manila and abroad)	Arrive via Naga Airport	Need transfers and travel times	Naga Airport about 25 min (to confirm); transfers with 24 hours' notice	[SC] `TRAVEL_ROUTES` "Daily flights from Manila"; `ARRIVAL_NOTES`; `CLUB_PHONE` comment: E.164 format "so that it dials correctly from abroad"
International visitors (JA, KO, VI, ZH speakers)	Overseas golfers	Language	Site available in their language	**Inference** from [I18N] `LOCALES`. No source says these are target markets: **owner call**
Regional players (Naga, Legazpi, Bicol)	Drive in for a round	Route and time	Routes from Naga City (20 min) and Legazpi (2 hrs), both to confirm	[SC] `TRAVEL_ROUTES`; Bikol (`BCL`) locale built but hidden from the switcher [I18N]. **Inference**
First-timers and higher handicaps	New or improving players	Fear of a hard course	Wide landing areas; no handicap certificate; keep pace	[SC]/[VIS] FAQ handicap answer; [GOLF] `PRINCIPLES` "playable for higher handicaps" (defined in code, but the `DesignPrinciples` section renders empty, so this is a **wish**)

2. The problem we solve

Source: inferred from what the site bundles and answers. **PROPOSED**, because there is no research or customer data.

- A golf trip to Camarines Sur has many parts: tee time, caddie (required, "one caddie per bag on every round" [SC] FAQ), cart, club rental, rooms, airport transfer, meals, things for non-golfers.
- Visitors don't know whether non-members can play, how far ahead to book, or what to wear. The FAQ and [VIS] answer each of these.
- Groups and event organisers need one team to set timings, dining and golf. [EV] says: "Nothing here is a fixed package."
- Partners and families need something to do during the round ([SC] FAQ, [EXP]).

3. How we solve it

Belonging	Birdie / Eagle / Albatross monthly plans	followed in copy; prices not approved (see §9)	[MP]

4. Products, services and surfaces (as they exist now)

5. Why we are different: competitor landscape

No competitor or benchmark is named in any source. [PKG] has a code comment saying the package structure follows "karaniwang ginagawa ng mga resort-golf club" (what resort-golf clubs usually do), but it names

no club. The table below lists sourced differentiators only.

Competitor	What they are	How CamSur Uptown Golf differs
None named in sources	n/a	Do not invent comparisons. **owner call** to supply a benchmark list

Difference	Wording we may use	Status	Source

Playable for all levels	"Generous landing areas keep the course playable for higher handicaps."	wish (in code, not rendered)	[GOLF] `PRINCIPLES`

6. Origin / provenance story

What the sources support:

- "Est. 2026" brand mark ([HOME]). There is no opening date: hole pages show "Opening year" with the value "To be confirmed" (`src/app/golf/courses/[hole]/page.tsx`).
- Course design is credited to IMG ([HOME], [SEC]). The terms of the relationship are not in the sources.
- Hole figures are "transcribed from the supplied CamSur Golf Course scorecard" ([HO]).
- Clubhouse: two VM·STUDIO documents, the zoning study (April 2026) and the architectural concept (June 2026), which supersedes it. The client brief asked for "a world-class golf clubhouse … inspired by Filipino and tropical Asian architecture" ([CH] `CLUBHOUSE_CLIENT_BRIEF`).
- Address: San Jose, Pili, Camarines Sur ([SC] `CLUB_ADDRESS`).
- There is no founder story, ownership, developer name or history in the sources. **owner call**. Do not write one.

Never print

- **No competitor, supplier or NDA client names appear in the sources.**
- VM·STUDIO's direct email and phone (deliberately left out of [CH]: "kontak iyon ng ibang negosyo" = it is another business's contact). Only the studio's name and website appear.

- "6,697 yards" until confirmed (no source file contains it).

Hole descriptions vs par	[HO] pars: 6 = par 3, 7 = par 5, 10 = par 4, 12 = par 4, 16 = par 5	Same file's descriptions: hole 6 "third-shot position", 7 "A short hole", 10 "three-shot hole", 12 "A refined par three", 16 "one-shot setting"	**owner call**. Descriptions look shifted against the scorecard. Forward metres also look shifted (e.g. hole 6 forward 455 m vs back 113 m)
Tee label	[HO] field `blueMetres`	UI labels it "Black tee" (`Scorecard.tsx`, mobile)	owner call
Price status	[SYS] §2/§4: prices "Live on site … followed"	[GB] and [MP] headers: "HALIMBAWANG PRESYO … hindi pa inaprubahan ng club" (example, not approved)	Plan authority wins: **Estimate, not approved**. owner call
Rates listed vs quoted	[SC] FAQ: "Rates are quoted, not listed"; [VIS] green fee, caddie, club rental "On request"	[GB] lists ₱4,500 / ₱2,500 and add-on prices in the booking flow	owner call (also in [SYS] §6)
Member priority	[MEM] "Request preferred times before they open to the public"; [SC] FAQ members have priority on weekend mornings	[GB] public `bookAheadDays: 30`; [MP] Birdie 3, Eagle 7, Albatross 14 days ahead, so members get a shorter window than the public	owner call
Member online booking	[MEM] "Online tee-time booking for members is on its way."	[GB] / [PYV] online booking is live for visitors	owner call (confirm state)
Superlatives	[SYS] §6 must not say "World's best", rankings	Live copy: "A world-class course, shaped by IMG" ([SEC]); "World-class experiences beyond the course" ([SC]); "Championship golf and world-class experiences." ([FOOT], mobile)	owner call. "World-class" has no proof in sources
IMG tagline	[SYS] §6: may say "Designed by IMG" only	[I18N] `home.imgTagline` "The Global Leader in Golf Course Design"	owner call
Clubhouse spaces count	[CH] `CLUBHOUSE_FACTS` "9 Main areas"	[CH] `CLUBHOUSE_SPACES` has 10 entries; [SYS] says "10 spaces"	owner call (could be different groupings)

Clubhouse size	[CH] zoning study: ~800 m²	[CH] architectural concept: 2,695 m²	Resolved in source: June 2026 concept supersedes. Use 2,695 m²
Number of packages	[SC] code comment: "anim ang package" (six packages)	[PKG] `PACKAGES` has 2	followed = 2; comment is stale
Stay & Play audience	Brief for this file: "couples/families"	[PKG] "Couples and solo golfers"	Source wins: couples and solo golfers
Villa Del Rey distance	[PYV] "a short walk from the first tee"	[SC] FAQ "within easy reach of the course"; [SC] "within easy reach of CamSur attractions"	owner call

Design principles	[GOLF] `PRINCIPLES` (playable for higher handicaps)	`DesignPrinciples` section renders empty	wish. Not live copy
